JAIL BREAKERS GET 4 MONTHS

Joe DeFrank And Earman Strickler Sentenced By Judge Today.

Joe de Frank, Italian pugilist, cook, pipe line worker and convicted assailant of Miss Kathryn Bosserman, of East Berlin, was sentenced to serve four months in the Adams county jail, after he entered a plea of guilty to a charge of jail-breaking. De Frank's sentence will not become effective until after the expiration of his sentence of nine months for assaulting Miss Bosserman.

Earman Strickler, held in jail awaiting disposition of the charge of passing a worthless check, and who escaped with de Frank, also drew a sentence of four months in the county jail.

Both sentences were handed down by Judge Donald McPherson this morning.

Strickler and De Frank escaped from the local jail at 3 o'clock in the morning of August 17. They sawed their way through two layers of flooring, clawed and chopped their way through a two-foot stone and brick foundation and then scaled the 20 foot stone wall circling the jail yard.

At 7 o'clock the same night, sixteen hours after their daring break for liberty, both men were captured by Sheriff Wible and Deputy Sheriff Weaver, three miles from Emmitsburg on the Frederick road. They were returned to the Adams county jail and placed in solitary confinement. De Frank, said to be the most dangerous by Sheriff Wible, was placed in the "death cell." The next day both men signed pleas of guilty.

Strickler, jail officials believed, would have been released on August 20, three days after his dash for liberty.

Striking Miners Plan New Attack On "War Area"

Gillespie, Ill., August 27 (AP)—Striking Illinois miners today mapped out plans for a second offensive against operating mines in southern Illinois.

Disregarding a warning of Frank- lin county authorities that no invasion would be tolerated, the miners central policy committee here said bases would be established soon near the "war area," where about 15,000 strikers were repelled by gun fire and clubs Wednesday night.

The committee refused to make public details of the contemplated invasion but stated that several thousand men would advance into the territory in attempts, through peaceful picketing, to dissuade miners from working under the new \$5 wage agreement. Strikers claim title units from unions in Kentucky, Indiana and Oklahoma would join the movement.

LAW PROHIBITS REDUCTION OF LAND FIGURES

Attorney, Informs Commissioners Assessments Must Remain Same.

CHANGES WILL BE MADE IN '33

Application for reductions in real estate assessments or valuations, made to various assessors and to the county commissioners, cannot be acted upon until 1933, according to an opinion given the commissioners by their solicitor, Attorney J. L. Williams.

Mr. Williams submitted his opinion in a letter addressed to the commissioners on Friday. The opinion is as follows:

"I understand quite a number of applications have been made by our tax payers both to the various assessors and also to your office (commissioners) for reductions in real estate assessments or valuations.

"The law on this subject is quite old, the main act being that of April 15, 1834, with some amendments, and this provides, that all real estate assessments shall be made every three years. This is called the triennial assessment and the next one will take place in the year 1933. The present assessments of course were made in 1930, and under the law these remain fixed for this three year period.

"The only changes that can be made in the intervals between triennial years are added values for the erection of new buildings and improvements, and reductions on account of buildings being destroyed or damaged by fire or otherwise.

"Neither the assessors nor yourselves (commissioners) have any right or authority to change valuations, except as herein noted, during this year.

"Assessments of real estate are to be based on the actual market value, and of course next year such adjustments and equalizations can be made as may then be justified by actual market values at that time."

McSherrystown Man Must Serve Three Years In Penitentiary; Richardson Sent To Adams Jail

Eighty-Six Months In Eastern Penitentiary And Fines of \$722 Handed Down By Sentence Court Before Judge Donald P. McPherson Today.

IRON SPRINGS YOUTH DRAWS TERM OF 18 MONTHS, MANSLAUGHTER CHARGE

Eighty-six months of sentences in the Eastern penitentiary and the Adams county jail and fines totaling \$722 together with costs of prosecution were meted out this morning by Judge Donald P. McPherson when 36 defendants were arraigned in sentence court.

Percy L. Laughman, of McSherrystown, recently paroled from the Eastern penitentiary from a sentence for chicken stealing and arrested by state police about two weeks ago on a similar charge drew a sentence of from 18 months to three years in the eastern prison.

Laughman's sentence was the most severe meted out by Judge McPherson this morning. The court recalled the previous offense and when asked if he had anything to say Laughman shook his head in negative.

Richardson Gets 18 Months

William S. Meyers, also of McSherrystown, arrested with Laugh-

man and charged with the same offense, was not sentenced by the court. It is Meyers' first offense and the court announced that a further investigation would be made before passing sentence on him.

Sheldon Richardson, of Iron Springs, drew the second heaviest sentence, with a term of 18 months in the county jail upon his conviction of involuntary manslaughter.

Richardson was arrested after an automobile accident in which Ray Hurley, also of Iron Springs, suffered injuries that caused his death in the Annie M. Warner hospital several days later. Richardson was charged with involuntary manslaughter and was convicted of the charge by a jury in court this week. Richardson was also fined \$1 and costs.

Sentenced On Liquor Charge

Stewart Dorsey, colored, of Gettysburg, and George A. Rosenberry, of Shippensburg, each drew the third longest sentence of six months and \$100 fine.

Dorsey was arrested by Officer Aughinbaugh with a pint of whiskey in his possession. He entered a plea of guilty to a charge of illegal possession and transportation and was sentenced to the Adams county jail for six months, fined \$100 and ordered to pay the costs of prosecution.

Rosenberry was arrested by state police with Dale M. Angell, also of Shippensburg, charged with transporting illicit liquor. A quantity of alleged moonshine liquor was found in the machine.

Before court Rosenberry said the car belonged to him and that he was transporting the liquor. He said Angell knew nothing about it and had been invited by Rosenberry to accompany the latter to Thurmont where the liquor was purchased.

Rosenberry was given a six months' sentence in the local jail, fined \$100 and ordered to pay the costs. The court deferred sentence on Angell.

Other Court Sentences

Others sentenced or fined by the court include:

Charles M. Thompson, of Highland township, charged with forgery in the amount of \$7.80 and in jail since May was placed on probation for 18 months and ordered to pay the costs of prosecution.

Ray Daywalt, of Franklin township, charged with breaking and entering and with the larceny of furniture valued at \$62.50 was ordered to restore the value of the stolen property. His case was not definitely disposed.

Edward Williams, in jail since May 10, charged with stealing two fountain pens in Littlestown, was ordered into the custody of the sheriff for further investigation.

Robert Dick, of Sabillasville, Maryland, charged with driving an automobile while under the influence of liquor, was sentenced to two months in jail, fined \$100 and ordered to pay the costs.

Fesser Sent To Jail

M. E. Fesser, of McSherrystown, charged with illegal possession of intoxicating liquor and driving a motor vehicle while under the influence of liquor, was sentenced to four months in the county jail, fined \$100 and ordered to pay the costs of prosecution.

Harry Flemming, of Hunterstown, charged with failing to keep a record of some copper wire he had purchased, and said to have been stolen from the American telephone and telegraph company, totaling 760 pounds, was given thirty days in which to pay \$20, the value of the wire.

Marshall Walter, 16, of Biglerville, charged with malicious mischief, was placed on probation for one

year and Raymond Walter, 15, apprehended with him, was turned over to the juvenile court.

Ex-Burgess Sentenced

McClellan Swartz, ex-burgess of Spring Grove, charged with driving an automobile while under the influence of liquor, was sentenced to 60 days in the county jail, fined \$200 and ordered to pay the costs of prosecution. Swartz was arrested by State Highway Motor Patrolman Schwartz after the Spring Grove man is alleged to have run his automobile into a moving freight train. Swartz may apply for a parole in thirty days.

Pius Thomas, of Gettysburg, arrested by Officer Aughinbaugh charged with stealing merchandise from in front of the American Store, Carlisle street, was sentenced to four months in jail.

Rodney Smith, of Littlestown, charged with issuing a fraudulent check, in the amount of \$5 was placed on probation for three months and ordered to make good the \$5 check. He also was ordered to pay the costs of prosecution.

Paul E. Mummert, of Tyrone township, charged with illegal possession of intoxicating liquor, will be sentenced on November 19.

Irvin Weiss and Gilbert Salkovitz, both of Pittsburgh, and David Dominguez, Los Angeles, charged with breaking, entering and larceny in connection with the theft of a small quantity of merchandise from the road-stand along the Lincoln highway, east of here, were placed on probation and ordered to pay the costs.

Jones On Probation

David Jones, Gettysburg negro, who entered a plea of guilty to a charge of open lewdness, was placed on probation for 18 months and ordered to pay the costs within six months. Jones was arrested at the home of William Wavell, Steinwehr avenue, on the evening of June 29, after he is alleged to have climbed to a back porch roof, presumably with the intention of peeping in the bathroom window at a woman tourist. Jones was undressed at the time, officers who arrested him said. Jones has been in jail since his arrest.

Charged with the larceny of an automobile in Abbottstown on May 6, Frank di Giovanni, New York city, entered a plea of nolle contendere and received a suspended sentence from Judge McPherson. He also was ordered to pay the costs, amounting to \$22.10.

Hayes Groft, McSherrystown, prosecutor in an assault and battery action against his brother, Roy Groft, was given three months to pay his share of the costs in the case, amounting to \$42.64. Roy Groft was acquitted in court this week, but the jury divided the costs.

Assault Costs Divided

Judge McPherson ordered Mrs. Burnell Swain and Mrs. E. C. Woodward, both of Gettysburg, to pay their respective shares of the costs in the assault and battery action brought by Mrs. Woodward against Mrs. Swain.

Judge McPherson ordered forfeited the recognizances of Earl Swope, Aspers, charged with a statutory offense; Floyd F. Cold-Brady, Hanover, charged with a statutory offense; Floyd F. Cold-smith, Straban township, charged with a statutory offense; Harry Tressler, Carroll county, charged with a statutory offense; Harry Bordley, Gettysburg negro, charged with the illegal sale and possession of intoxicating liquor, because they failed to answer to their names when called for sentence by District Attorney Butt. The court ordered processes issued for their arrests.

STRIKERS PLAN NEW ILLINOIS MINE INVASION

Strike Leaders To Raid Operating Shafts In Small, Swift Units.

Gillespie, Ill., Aug. 27 (AP)—Secret plans were made Friday by the strike committee of miners for a second invasion of southern Illinois coal fields by swift-moving units operating from bases surrounding the operating mines.

The committee, in command of the nine-mile motor caravan of about 5,000 persons which was re-equipped by bullets and clubs at the Franklin county line Wednesday night, said it would not give out details regarding the contemplated new offensive. The strikers are protesting a new \$5 basic wage scale.

No large unwieldy group, however, will stage the second march, the committee said. Several thousand men, committeemen said, will be placed at strategic points surrounding southern counties, located so that contact can be maintained with Kentucky, Indiana and Oklahoma miners, who plan to join the movement.

Massmeetings Held
Strikers in several counties held massmeetings Friday to discuss the proposal and to select "committeemen" to act as pickets for the second drive. At the Christian county meeting, where a Peabody Coal company mine reopened Friday, Earl Baker, chairman of the Christian county contingent in the first unsuccessful drive, said: "We didn't get through Franklin county bodily, but our spirit penetrated."

Gillespie headquarters said that "our civil rights of peaceful assembly and picketing shall be recognized if it takes all winter."

They will continue doing this until the close of the inspection period, midnight, September 30. Vehicles not displaying a blue and gold inspection sticker will be stopped.

The cards read as follows: "Warning—Your car should be inspected now. To avoid prosecution it must be inspected before October 1, 1932. This is important. Do not delay."

Dismiss Charges Against Driver Of "Radio" Car

Charges of assault and battery and aggravated assault and battery by automobile against J. J. Lynch, Chicago, the operator of the driverless radio-controlled car which injured eleven persons at the Handover airport on July 31, during a demonstration, were dismissed Friday evening by Justice of the Peace L. D. Sell.

Similar charges against William Rogge, of Washington, D. C., were dropped at a hearing, August 11. Rogge was business manager of the exhibition.

The decision against Lynch was held under advisement under orders from District Attorney Ralph Fisher at the hearing on August 11. The district attorney desired to check with reputable engineers, testimony given by Lynch concerning the operation of his radio equipment.

WOMAN DIES IN HOTEL BATHTUB

Silver Springs, Maryland, Woman Found Scalded To Death; Bruise On Head.

Cleveland, Ohio, Aug. 27 (AP)—Half covered with scalding water, the body of Mrs. Marguerite Zihlman, 44, wife of Frederick Zihlman, former member of congress from Maryland, and past supreme dictator of the Loyal Order of Moose, was found late last night in a bathtub in her hotel room here.

Physicians said Mrs. Zihlman died of a heart attack, but Coroner A. J. Pearce said he would perform an autopsy today.

Mr. and Mrs. Zihlman, residents of Silver Springs, Maryland, were attending the Moose international convention here. The former supreme dictator of the order last saw his wife alive about 6 p. m., when he departed to enter the Moose parade.

Early in the evening hotel employees found the door to Mrs. Zihlman's room open and warned her she should keep it closed despite the heat, because of the possibility of thieves entering.

Later in the night a watchman again found the door open. Receiving no answer when he knocked, he entered and found the body face downward, with a bruise on the forehead. Hotel employees said the bruise probably was received by falling into the bathtub.

Surviving Mrs. Zihlman is her husband; adopted daughter, Suzanne; her mother, and two sisters, Miss Madeline Dahl, of Cumberland, Maryland, and Mrs. George W. Hehlberth, of Silver Springs.

DAVISON SAYS REDS "FAKED" U. S. DISCHARGES

New York, N. Y., Aug. 27 (AP)—F. Truhee Davison, assistant secretary of war, and republican gubernatorial aspirant, charged before the New York state convention of the American Legion, in Brooklyn, today, that the discharge papers presented by a large percentage of bonus army members in Washington, were products by "communist owned diploma mills."

"Nearly all of the real veterans went home after congress adjourned," he said. "Less than 2,000 remained for the final curtain, and dovetailed in among them was a mob of tramps and hoodlums, plus a generous sprinkling of communist agitators from New York and Philadelphia. I say what I say advisedly. I know what I am talking about."

SCHOOLS CALL BACK STUDENTS

More Than Two Million Pupils Will Enroll This Fall.

Vacation days are ended for the more than two million school boys and girls of Pennsylvania. A few rural schools opened last week and many others open this week. Tuesday, September 6, the traditional "day after Labor Day," marks the time when most of the Commonwealth's great army of school children answer the first call of bells from more than 13,000 school buildings to greet their 65,000 teachers.

A new high record enrollment is expected in the public schools this year, according to Dr. James N. Rule, state superintendent of public instruction. The department anticipates more students than ever in high schools because of the unemployment situation, and thousands of high school graduates unable to go to college or find work will seek a fifth year of training in post-graduate studies.

Expect Increases
Unemployment also will bring increases in adult education enrollments. Hundreds without work will turn to night classes for new opportunities and avenues for profitable use of leisure time. State aid is available for such classes when organized in accordance with regulations established by the state council of education.

Economics in school district budget making suggested by Doctor Rule last spring will become effective this fall, and practically every district will operate on reduced funds. He said directors and superintendents in all parts of the state have given assurance that administrative economies and efficiency measures have been introduced wherever possible, in keeping with maintenance of acceptable educational programs. Special loans and advancements have been made to some needy districts in order that they may conduct schools without loss of value to the pupils.

Public schools will enroll more than 1,900,000 pupils and may pass the two million mark, department officials said. Private and parochial schools will care for about 350,000 additional pupils. Evening classes in high school subjects will have 100,000 of more course enrollments; fifty thousand will take advantage of English and citizenship class offerings; twenty thousand will be attracted to elementary classes, and about six thousand foreign born mothers will join home-class groups to learn to speak, read and write the English language.

In some counties where the county teachers' institute week has been abandoned this year, schools will open a week later or close a week earlier than usual.

Popular Athlete To Attend Academy

Dichard "Dick" Spotts, former Williamsport high school and Dickinson seminary athlete, will participate at Gettysburg academy this fall.

Spotts, a husky 200-pounder, scintillates in basketball and baseball and has played a little football at Dickinson seminary where injuries curtailed his grid career.

Despite his build, Spotts was regarded as one of the speediest and most accurate shooting forwards to be developed in Williamsport in the past few years. He starred on Williamsport high court teams for two seasons and one season at Dickinson.

Fairfield Defeats Crist Team, 11-9

Fairfield's strong baseball nine handed an 11-9 defeat to "Doc" Crist's team on the academy field Friday evening.

Next week the Cristies will terminate their already-successful season. Tuesday they play a return game at Fairfield and Friday end the season at Mummansburg.

Federal Employees Get Vote For Taxpaying

A resident of Pennsylvania employed by the federal government may qualify as a voter by paying a poll tax in the county where he or she resides, according to George D. Thorn, chief of the election bureau, department of state.

Counties of the first, second and third class, which include Philadelphia, Allegheny, Delaware, Lackawanna, Luzerne, Montgomery and Westmoreland, do not assess taxes on occupations, but levy a poll tax instead. Philadelphia collects 25 cents and the others 50 cents.

Other counties levy taxes based on occupational assessments. Salary or wages paid by the United States government cannot be taxed by a state or any minor division thereof. In lieu thereof the state law directs the assessment of a county tax of 50 cents on each federal employee.

Proposal of the poll tax for county purposes complies with the constitutional requirement that a voter must pay a state or county tax as a prerequisite to casting a ballot.

Poll taxes like others must be paid within two years and be assessed at least two months and paid at least one month before the election.

September 7 is the last day to be assessed and October 8 the last day to pay taxes to qualify for the election on November 8.

Read The Bible With Us Daily

My son, if thou be surety for thy friend, if thou hast stricken thy hand with a stranger.

Thou art snared with the words of thy mouth, thou art taken with the words of thy mouth.

Do this now, my son, and deliver thyself, when thou art come into the hand of thy friends; go, humble thyself, and make sure thy friend.

Give not sleep to thine eyes, nor slumber to thine eyelids.

Deliver thyself as a roe from the hand of the hunter, and as a bird from the hand of the fowler.

Go to the ant, thou sluggard; consider her ways, and be wise: Which having no guide, overseer, or ruler,

Provideth her meat in the summer, and gathereth her food in the harvest.

How long wilt thou sleep, O sluggard? when wilt thou arise out of thy sleep?

Yet a little sleep, a little slumber, a little folding of the hands to sleep:

So shall thy poverty come as on that travellet, and thy want as an armed man.

DOG LICENSES GOOD REVENUE

\$6,000,000 Realized On Licenses Of Canines During 10 Years.

That the Pennsylvania dog law is a good revenue producer for the commonwealth, as well as a protection to the public, to property, livestock and poultry, is indicated in figures compiled by the bureau of animal industry. Pennsylvania department of agriculture, covering enforcement of the law for the ten years during which time it has been under the bureau's supervision. More than \$6,000,000 has been brought into the state treasury and over 20,000 damage claims have been satisfactorily settled, calling for payment of over \$700,000 to owners of livestock and poultry for damages by dogs.

TODAY'S TALK

By GEORGE MATTHEW ADAMS

THE SUNRISE

THOSE who rarely, if ever, enjoy the thrill of the opening of the day do not know what they are missing.

To me the sunrise is one of the glories of life. I am blessed with good sleep, but I wake early. I have happy memories of early mornings, in many climates and locations. Those in the west, where the air is so clear and pungent and the light like a stream of love I can never forget. And what beauty to the sunrise in the mountains!

For many summers I awoke in a tent upon the shores of Lake Champlain and I would listen to the soft ripples of the waves below me as the sun swept its feathery substance of golden glow across the waters. And the memories of the early sunrise, day after day, during the winter season at Miami Beach, Florida, I can never forget. I used to watch it creep from far out upon the ocean and be thrilled as it washed all the land before me.

Recently, from my little island home at "Weskawenak," in Nova Scotia, I have gained in heart health. I know, from the early sunrises that have endeared the lake and its beautiful surroundings to me. This morning, for instance, the waters were as a huge expanse of glass. There was not a stir in the air. A quiet mist arose slowly and gave the faintest outline of grey mass to the distant forest shores. There were extending streams of color that wrapped the horizon to these waters. Slowly the mist disappeared and out from it all a glorious light came. The day was in full bloom under God's blue sky!

So many of my disappointments and failures seem to be blurted—and often entirely blotted out, by the glorious gift of this light at early dawn. I have arisen, and quietly withdrawn from my small lodge, to the edge of the water, and there, upon a noble rock, have meditated upon the loveliness of this exquisite vision of nature—premiere of them all.

One morning I viewed the sunrise at the Grand Canyon of Arizona—and it was so indescribable that I omit all words about it. There are times when we view nature in speechless mood.

NAILS—8 POUNDS—PICKED UP AT NORFOLK AIRPORT

Person Who Strewed Runways With Sharp Little Spikes Sought—Planes Damaged

Norfolk, Va., Aug. 27 (AP)—Some person has literally strewn the runways at the Norfolk airport with disaster. Roofing nails—eight pounds of them—have been picked up from the airport runways, and still planes are coming limping in with their tires punctured by the sharp little spikes.

A heavily loaded passenger plane bumped to a halt a few days ago, one wing perilously low, as a result of a punctured tire.

Investigation is being made to catch the culprit.

U. S. BUSINESS MUST UNITE IS HOOVER'S PLEA

Finance Board Will Aid Railroads To Create Employment.

Washington, Aug. 27.—President Hoover Friday told the leaders of American banking and industry that the nation had overcome the major financial crisis and that it was now the duty of the government and the business interests through cooperation "to make more effective the activities of every agency which can promote the recovery of the nation."

Particularly Mr. Hoover urged action toward greater expansion of credit, increased employment and restoration of agriculture.

The president addressed an audience composed of some 150 bankers and industrialists representing the twelve Federal Reserve districts. Undoubtedly it was the most representative gathering of the financial and industrial forces of the nation in our economic history. Every section of the country was represented and immediately after the president's address the visitors devoted themselves to exchanges of view on methods of nation-wide economic readjustment.

Arrangement Revealed
A joint statement by Daniel Willard, president of the Baltimore and Ohio railroad, and George H. Houston, president of the Baldwin Locomotive works, revealed that an arrangement had been worked out whereby the Reconstruction Finance corporation would make funds available to the railroads for purchase of new equipment. The corporation will advance 80 per cent of the required funds and the manufacturers of equipment securities for 10 per cent of the purchase price, while the railroads will supply the remaining 10 per cent in cash.

Mr. Willard, speaking on the arrangement, urged the railroads to anticipate as much repair work as possible as a means of increasing employment.

Landmark Is Doomed

Modern Building Will Replace Old New Orleans Market.

New Orleans, La., Aug. 27 (AP)—The old French market, heart of barter and trade when Spanish galleons slipped across a pirate-harassed sea to bring continental silks and luxuries to colonists, is doomed.

Progress has marked for oblivion the picturesque low-roofed building with its gaudy awnings where Andrew Jackson fed his men after Chalmette.

Stallkeepers whose stands have passed from generation to generation since the Spanish flag flew over the nearby Place d'Armes heard Friday with mixed emotions a city commission council announcement that the old market, with its color and million odors, is to give way to a \$700,000 white tile and electrified establishment.

The market, stretching for three solid blocks between the Mississippi river levees and the plaza in front of St. Louis cathedral, was originally built as a trading point by the Spanish in 1791. A storm laid low its acres of stalls in 1812 but the French rebuilt it as "Les Halles des Boucheries," although the place, then as now, was never restricted to butcher shops. Today one can buy there roses as conveniently as veal cutlets.

The old negro woman in red bandana who sold pralines near the entrance for half a century wonders if she will find a place in the white-tiled scheme of things when a new French market rises on the ashes of the old.

Squeals Of Girls Save Him Pearls

Dealer Finds Oyster-Openers' Admiration Prevents Gems' Loss.

San Francisco, Aug. 27 (AP)—Because women—even Polynesian girls—exclaim over beautiful pearls, Victor Berge, pearl prospector and merchant, keeps the natives from robbing him of the choicest gems.

"I employ nothing but native girls to open the shells," Berge said on his arrival here Friday en route from Tahiti to Paris to market this season's yield of pearls. "Their instinctive admiration for a beautiful stone is so strong that their faces tell me immediately when they open a valuable pearl shell."

"Besides their squeal of delight gives them away. The system may not be the most modern in the world, but I am sure I have never lost a valuable stone."

THE LITTLE MOTHER

The little mother sang her songs
And didn't seem to care
About the countless tiny wrongs
That pressed upon her there.
She never seemed to mind the pain
Her heedless children wrought,
But told again, again, again
How much of us she thought.

She sewed our little buttons fast
And darned our stockings, too;
Although the mending wouldn't last,
She positively knew.
She didn't seem to mind at all
Her endless round of toil
Or fret o'er pleasures, great and small
Which little children spoil.

Above the moans of broken sleep
Her lullabies she'd sing,
Nor think it worth her while to weep
About some shattered thing.
The pain we caused, the needless care,
'Till she was called above
Were burdens she was glad to bear,
So great is mother love!

Picketing Movement Is Spreading, Report

Few Trucks Attempt To Run Gauntlet Formed By Posts Along Highways.

Council Bluffs, Iowa, Aug. 27 (AP).—From the scattered camps of farmers' holiday pickets Friday reports of a gradual spread of the anti-marketing movement were received.

Picketing continued on two highways leading into this city, where Thursday 1,000 strike sympathizers threatened to storm the county jail to release arrested comrades, but the danger that led Sheriff P. A. Lainsou to mobilize 200 deputies appeared to have passed. The prisoners were released on bonds Thursday night.

Instead of the 3,000 men gathered in the picket camps about here at one time Thursday night, only small groups blockaded United States highways No. 34 and No. 75 Friday, and they picketed peacefully. Trucks were stopped and the drivers persuaded to return home.

A similar situation existed at Sioux City, where strike leaders maintained that picketing had become so effective in that territory that few attempts were being made to run their blockades.

The strike movement Friday spread to Shenandoah, Iowa, and Blair, Nebraska; a threat of tightening the blockade at Spencer, Iowa, unless produce houses closed, was made, and plans were perfected to begin picketing on highways leading into Des Moines today.

Dairymen Praised

McSparran Dedicates New Building At State College.

State College, Pa., Aug. 27 (AP).—Pennsylvania's position as a leading dairy state is due to its dairymen who have produced their own stock and are constantly on the alert for better types, John A. McSparran, secretary of agriculture, said Friday at the dedication of the dairy husbandry building at Pennsylvania State college.

"We still have too many farmers among us whose cattle are the hit and miss variety controlled very largely by the price that particular animal brings at a public sale," he said. "We need more dairymen today who will make up a particular type of dairy animal and perfect that type as far as possible."

"We are face to face these days with low prices for products and the call was never more insistent than at the present time in the dairy business to cut down numbers and increase the production of a given animal. Experience has indicated that it is almost impossible to do that by going out and buying indiscriminate animals, the breeding of which is mongrel and at best unknown."

Lightning struck the clock of the... Ha M. Richards at Covington, Kentucky, to run backwards.

port pilot, was reported by him as stable and up to standard in every respect.

It was officially approved by the department of commerce while under construction and will be licensed.

Forestry Unit Keeps Highways Cleared

Traffic safety work kept the forestry unit of the Pennsylvania department of highways busy during the past month. Pruning, trimming and removal of dead and dangerous trees when tabulated revealed a total of 22,405 that called for attention. Much of the work was in south central counties.

Other work included grass seeding and sodding to protect shoulders and eradication of tent caterpillars in Berks, Cumberland, Adams and Franklin counties.

The forestry forces are utilizing every opportunity to open up new views and scenic vistas through the removal or thinning of vegetation obscuring them.

COTTON MILL STRIKERS
FORCE PLANT TO CLOSE

Walkout At Rockingham, N. C.,
Follows Demand For Return
Of Former Wage.

Rockingham, N. C., Aug. 27 (AP).
—Several hundred striking employes
of the Hannah Pickett cotton mill
massed at the entrance to the mill
here Friday and succeeded in turn-
ing back its 400 workers and forcing
a close down.

The sheriff organized a force of
deputies to maintain order and there
was no disturbance.

The strike began at the Hannah
Pickett cotton mill early this week,
where employes demanded return to
the wage under which they worked
prior to two recent reductions.

"Youth" Vitamin Found In Spinach, Yeast, Tomatoes and Other Foods

New G Discovery Also Lurks In Eggs, Legumes, Liver and
Kidneys; You Get It In Well-Balanced
Diet, Doctors Say.

New York, Aug. 27 (AP).—The
"youth-lengthening" vitamin G,
described to the American Chemical
society at its current session in Den-
ver by Prof. Henry G. Sherman, of
Columbia university, is easy to get in
many common foods.

It is widely distributed in toma-
toes, spinach, legumes, eggs, yeast,
liver, kidneys and various glandular
tissues. This vitamin is not always
called G, but by some scientists is
named as a fraction of vitamin B,
the nerve vitamin.

The first step was discovery that
B contained something in addition
important for growth. It was also
discovered that the B fraction called
G was quite specific in preventing
pellagra.

The layman gets the benefits of
vitamin G at present in what phy-
sicians call a "balanced diet," that
is, a temperate selection of a wide
variety in his food.

Specific use of vitamin G for the
growth-promoting qualities which
promise what Dr. Sherman termed
"lengthened youth for the human
race" has not been far enough de-
veloped to be given to the public at
large as a specific remedy for this or
that failure of growth.

New Books

By John Selby

New York—Grand Duchess Ma-
rie's second major literary effort,
"A Princess in Exile," is a thor-
oughly civilized and mature effort.

It not only explains in detail Ma-
rie's personal struggle through mis-
take after mistake to acclimatize
herself to a madly upended world,
but directly and by implication does
the same for that of many thou-
sands born to a less exalted state.

Homeless royalty can be treated
like the poor relations of small
tradesman, Marie reveals. And are.
A hungry grand duke is just as
pitiable and just as hungry as a
ravening newsboy. Kindness such
as that shown Marie and her hus-
band by Queen Marie of Rumania
leaves a glow in royal hearts, just
as Cousin Mehmet's sudden be-
friending of the orphan next door
would in yours.

"A Princess in Exile" is a very
human and very ingratiating book.

Two First-Rate Novels

Two Americans oblige this week
with first rate novels. One is El-
len Glasgow, with "The Sheltered
Life," the other Julian Green with
"The Strange River."

Green (writing as usual in
French, translated by Vyvyan Hol-
land) goes deliberately about the
business of stripping off, in small
segments, the protecting covering
that conceals Philip Clerly's cow-
ardice from himself and the world.
The raw flesh beneath is not too
pleasant a sight.

Miss Glasgow does the same
thing, but in a less austere way,
and for a larger range of charac-
ters.

Let There Be Gossip

Washington, by now used to fre-
quent bludgeoning, is beaten about
the head twice this week, once in
"More Washington Merry-Go-
Round," and again in a tirade
against alleged senatorial extrava-
gance called "Washington Swindle
Sheet." The "More Merry-Go-
Round" is anonymous, as was the
first one; the other book is by Wil-
liam P. Helm.

Also out is a waspish satire on
the English in Italy by someone
using the pseudonym of James As-
ton, called "They Winter Abroad";
an excellent fantasy, "The Fair of
St. James" by Eleanor Farjeon; a

to get out more and I'm convinced that the time has
come for us to buy a car of some kind. I've been sit-
ting here reading the Want-Ads and the prices on
some of these Used Cars are amazingly low. I'm go-
ing to take a look at 'em tomorrow."

Yes sir, the time HAS come to buy a good
used car. First, because the driving season
is in full swing. Second, because good Used
Cars have NEVER been priced lower than
they are RIGHT NOW. Read the offers
